MESSAGE FROM COURSE AND PROGRAM COMMITTEE CO-CHAIRS

Dear Colleagues,

On behalf of the American Clinical Neurophysiology Society (ACNS) Council, we are thrilled to invite you to attend the 2016 Annual Meeting & Courses, taking place February 10-14, 2016 at the Hilton Orlando Lake Buena Vista in Orlando, Florida.

The ACNS Annual Meeting & Courses are designed to provide a review of the fundamentals as well as the latest scientific advances in central and peripheral neurophysiology. Experts in the field will give presentations of significant value for all healthcare professionals who utilize clinical neurophysiology.

This year’s Annual Courses includes a new offering, “Non-Invasive Brain Stimulation Technology.” As was done in 2015, and due to the continued success and interest in Neurophysiologic Intraoperative Monitoring (NIOM), the course will remain in the two full-day format to accommodate the degree of interest and growth within this rapidly expanding field of clinical neurophysiology. The course directors are working hard to provide attendees with an informational and educational series of presentations.

The Program Committee is pleased to present an impressive selection of sessions for delegates to attend throughout the weekend. There was again an outstanding set of session proposals submitted for consideration this year and we are confident that the program content will provide an exciting educational opportunity for all in attendance.

Following the success of last year’s Joint International Symposia, we are pleased to announce the inclusion of three sessions co-organized by our colleagues outside the US. We are honored to welcome representatives from the Brazilian Society of Clinical Neurophysiology, the Mexican Society of Clinical Neurophysiology, and the Latin American Chapter of IFCN. We hope you will take advantage of this opportunity to learn from and collaborate with our international colleagues.

In addition to the scientific sessions, there will be opportunities for educational entertainment and networking. The annual Neurophys Bowl provides a great night of “edu-tainment” for participants and attendees to test their knowledge in various fields of Clinical Neurophysiology. Additionally, attendees can socialize and network with exhibitors, colleagues and friends during the Welcome Reception on Friday, February 12 in the Exhibit Hall.

The 2016 Annual Meeting & Courses will provide an opportunity for education, networking and interaction with the latest equipment for attendees in varying fields of clinical neurophysiology. We hope to see you in Orlando!

Sincerely,

Tobias Loddenkemper, MD, FACNS
Course Committee Co-Chairs

ACNS INFORMATION

About the American Clinical Neurophysiology Society (ACNS)
ACNS is a professional association dedicated to fostering excellence in clinical neurophysiology and furthering the understanding of central and peripheral nervous system function in health and disease through education, research, and the provision of a forum for discussion and interaction.

Founded in 1946 and originally named the American Electroencephalographic Society (AEEGS), ACNS is the major professional organization in the United States devoted to the establishment and maintenance of standards of professional excellence in clinical neurophysiology in the practice of neurology, neurosurgery and psychiatry. ACNS members utilize neurophysiology techniques in the diagnosis and management of patients with disorders of the nervous system and in research examining the function of the nervous system in health and disease.

About the Annual Meeting & Courses
This year’s scientific program will feature the latest scientific advances in clinical neurophysiology presented by leading national and international experts in the field. This dynamic program has more choices than ever including the return of the Joint ACNS and International Society symposia, new morning workshops, and speakers who are experts in their field. The parallel sessions will provide simultaneous sessions for interests in EEG, electrodiagnosis and neurophysiologic intraoperative monitoring.

The meeting also features a number of opportunities for networking, including a Professional Development Mentorship Program in which residents and fellow applicants are paired with senior ACNS members and provided dedicated time in the program to interact. The annual Neurophys Bowl is a mainstay of the Annual Meeting program, allowing members and delegates a chance to challenge their knowledge of clinical neurophysiology in a competitive format.

Orlando Visitors Information
Nearest Airport: Orlando International Airport (MCO)
Average February Temperatures: High 73° F, Low 53° F
Orlando is the 26th largest city in the United States with a population of 2.1 million residents. Orlando is nicknamed the “Theme Park Capital of the World” drawing more than 57 million tourists each year.

The city offers numerous activities for varying interests, many of which are connected to the Walt Disney World® theme parks. Walt Disney World® opened in 1971 and has since expanded to now include more than 17 different attractions including Magic Kingdom®, Disney’s Animal Kingdom®, Epcot®, Legoland Florida and Disney’s Hollywood Studios®. In addition to the variety of theme parks, Orlando as a number of top ranked dining and entertainment experiences in the United States. If you would like to enjoy something outside of the Walt Disney World® realm, visit the Kennedy Space Center Visitor Complex or catch a round of golf at one of the top golf courses in Florida.

Orlando International Airport (MCO) offers more than 800 daily departures and services 36 million passengers annually. MCO is located 12 miles from downtown Orlando.

SunRail offers convenient transportation service for the Greater Orlando Area. Beginning in May 2014, SunRail connects Downtown Orlando to Orange and Volusia Counties.

Discounted tickets to all Walt Disney World® theme parks available to all attendees and families. Visit the Annual Meetings & Courses section of the ACNS website for more information! (www.acns.org/meetings/annual-meeting-and-courses/2016)

Headquarters Hotel
Hilton Orlando Lake Buena Vista
1751 Hotel Plaza Blvd
Lake Buena Vista, Florida 32830
(407) 827-4000
Reservations: (800) 782-4414

Housing Reservations
A block of rooms has been reserved for ACNS Annual Meeting & Courses delegates at the Hilton Orlando Lake Buena Vista. Reservations will be accepted on a space-available basis, at the standard hotel rate after the housing deadline of January 18, 2016. Please reserve your rooms before the deadline to take advantage of the group rate.

ACNS Group Rate: $189/night single/double occupancy
Group rate will be offered two days prior and two days following the dates of the Room Block, based on availability.

Housing Open: Now Open!
Housing Deadline: January 18, 2016
To make reservations online, visit the ACNS website: www.acns.org/meetings/annual-meeting-and-courses/2016/housing-travel.

To make reservations by phone, call (800) 782-4414. If making reservations by phone, don’t forget to mention the ACNS Annual Meeting to receive the group rate!

Registration Procedure
Save on registration fees and avoid long lines onsite when you register before the advance deadline of January 18! Online registration is a fast and easy way to register in advance, however, delegates may also register by completing and mailing or faxing the PDF registration form available online or on page 23.

To register online, go to the ACNS website: http://www.acns.org/meetings/annual-meeting-and-courses/2016/registration.

All registrations will be confirmed by email. If you do not receive a confirmation within two weeks of submission, please contact the ACNS Executive Office at (414) 918-9803 or info@acns.org.
CONTINUING MEDICAL EDUCATION (CME) INFORMATION

Educational Mission Statement

Purpose
The American Clinical Neurophysiology Society (ACNS) is a professional association dedicated to fostering excellence in clinical neurophysiology and furthering the understanding of central and peripheral nervous system function in health and disease through education, research, and the provision of a forum for discussion and interaction.

Content
ACNS is committed to providing continuing medical education to its members and others interested in clinical neurophysiology. Educational objectives include 1) Reviewing current knowledge of clinical neurophysiology including: electroencephalography, evoked potentials, electromyography, nerve conduction studies, intraoperative monitoring, polysomnography and other sleep technology, quantitative neurophysiological methods, magnetoecephalography, sleep disorders, epilepsy, neuromuscular disorders, brain stimulation, brain–computer interfacing, and related areas; and 2) Informing course and meeting attendees of recent technological developments and their implications for clinical practice.

Target Audience
The Society’s educational activities are directed to clinical neurophysiologists, neurologists, psychiatrists, physiatrists, neurosurgeons, trainees in these disciplines and other physicians and researchers who utilize clinical neurophysiological techniques and knowledge in the diagnosis and management of patients with disorders of the nervous system.

Expected Result
Attendees will improve competence in clinical neurophysiology procedures and incorporate new technological advancements into their practice.

Gaps and Needs
In compliance with the Updated Accreditation Criteria of the Accreditation Council for Continuing Medical Education (ACME), the Continuing Medical Education Committee of the ACNS has identified “professional practice gaps.”

Definition: A “professional practice gap” is the difference between what a health professional is doing or accomplishing compared to what is achievable on the basis of current professional knowledge.

The following professional practice gaps and educational needs were identified by a combined effort of the Program, Course and CME Committees.

Gap 1. Emerging Areas of Practice
Neurophysiologic intraoperative monitoring (NIOM) and intensive care unit EEG monitoring (ICU EEG) are new and rapidly evolving areas of clinical neurophysiology. Few practicing neurologists have adequate training in these techniques, and physicians with competence in these areas are in great demand. Educational activities should cover both basic methodologies for those practitioners new to ICU EEG and NIOM, and innovative techniques.

Gap 2. General Practice of Clinical Neurophysiology
Clinical neurophysiology procedures are performed by a large proportion of practicing US neurologists, many of whom have little or no formal training in clinical neurophysiology. Many clinical neurophysiology procedures (e.g. evoked potentials, invasive EEG) are performed at low volume at most centers, and a forum for review and hands-on interpretation are essential to maintain competence in these areas.

Several specific topics with significant gaps between current practice and ideal practice have been identified via review of the literature, review of clinical neurophysiology fellowship curricula, and surveys of ACNS members and Annual Meeting attendees.

These include:
- Peripheral neurophysiology, Pediatric EMG, critical illness related neurophysiology, and muscle ultrasound
- Basic EEG: Identification of normal variants, identification of artifacts, clinical correlation
- Pediatric EEG, especially neonatal EEG
- Digital EEG processing, e.g. quantitative EEG and trends for use in the intensive care unit, source localization, coregistration with neuroimaging, etc.
- Full band EEG, Ultrafast and ultraslow EEG
- NIOM: Motor evoked potentials, guidelines and standards of care for NIOM (e.g. indications, cost effectiveness)
- Evoked potentials: Current role of short- and long-latency EPs
- Video–EEG monitoring, especially invasive EEG
- Sleep, Use of new scoring system, implications for patient care

Changes in Behavior/Practice
It is intended that, as a result of attending the meeting and/or courses, physician attendees will be able to identify changes in competence or performance that are desirable. Definitions: “Competence” is knowing how to do something. “Performance” is what the physician would do in practice, if given the opportunity.

Evaluation
The updated ACCME accreditation criteria are designed to integrate with the new requirements for maintenance of certification (for more information see www.ABPN.org). Physicians are expected to perform self-assessments of their practice, but the ACNS, as an organization accredited by the ACCME, is expected to measure how its educational activities assist physicians in this activity. Thus, there are new questions in the evaluation form. These questions address your intended changes in competence or performance. In a few months, we will contact all physician meeting attendees to ask you if you actually HAVE experienced changes in competence or performance. Your responses, now and in the future, will assist us and ultimately you in determining educational activities that are most useful to you.

Policy on Financial Disclosures
It is the policy of ACNS to ensure balance, independence, objectivity and scientific rigor in all its individually sponsored or jointly sponsored educational programs. In order to comply with the ACCME’s Updated Standards for Commercial Support, ACNS requires that anyone who is in a position to control the content of an educational activity discloses all relevant financial relationships with any commercial interest pertaining to the content of the presentation. Should it be determined that a conflict of interest exists as a result of a financial relationship of a planner of the CME activity, the planner must recuse himself or herself from the planning for that activity or relevant portion of that activity. All presentations for which the presenter disclosed a potential conflict of interest are peer reviewed by two members of the ACNS CME Committee with no relationships. If bias is found, the presenter is asked to make changes to the presentation and
CME INFORMATION — CONTINUED

it is re-reviewed for bias before final approval. Refusal to disclose a conflict or the inability to resolve an identified conflict precludes participation in the CME activity. Complete conflict of interest disclosure information is printed in the final program for the activity. A learner may request additional information regarding the nature of a planner or speaker’s disclosure if “No Relevant Relationships” has been indicated below. To request additional information, contact the ACNS Executive office at info@acns.org.

Meeting Description
The ACNS Annual Meeting & Courses are designed to provide a solid review of the fundamentals and the latest scientific advances in both “central” and “peripheral” clinical neurophysiology. Presentations at the Annual Meeting & Courses are given by leading experts in the field and have value for health care professionals who utilize clinical neurophysiology. Sessions include symposia, workshops, courses and Special Interest Groups, featuring didactic lectures, expert panels, debates and interactive formats. Poster presentations at the Annual Meeting highlight the latest work conducted at clinical neurophysiology centers around the country.

Annual Courses Learning Objectives
At the end of the Annual Courses, the participant will be able to:
1. Describe the indications for use of clinical neurophysiology techniques in diagnosis of disorders of the nervous system;
2. Incorporate new neurophysiology procedures and technological advances into his/her own clinical practice; and
3. Perform and interpret a broad range of clinical neurophysiology procedures, and integrate the results of these tests into comprehensive patient management plans.

Annual Meeting Learning Objectives
At the end of the Annual Meeting, the participant will be able to:
1. Discuss recent advances in electroencephalography, evoked potentials, ALS, magnetoencephalography, practice technologies, nerve conduction studies and other clinical neurophysiology techniques; and
2. Apply advances in clinical neurophysiology techniques to improve the diagnosis of neurologic disorders.

Accreditation Statement
This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Educations (ACCME) through the sponsorship of ACNS. ACNS is accredited by ACCME to provide continuing medical education for physicians.

Credit Designation
ACNS designates the Annual Meeting for a maximum 16 AMA PRA Category 1 Credit(s)™. Physicians should claim only credit commensurate with the extent of their participation in the activity.

ACNS designates the Annual Courses for the maximum number of AMA PRA Category 1 Credit(s)™.

Evoked Potentials
1.5 AMA PRA Category 1 Credit(s)™

EMG & EEG Technology
1.5 AMA PRA Category 1 Credit(s)™

Neurophysiologic Intraoperative Monitoring (NIOM) Part I*
6.5 AMA PRA Category 1 Credit(s)™

Intensive Care Unit EEG Monitoring (ICU EEG)*
6.5 AMA PRA Category 1 Credit(s)™

Introduction Stereo-EEG
1.5 AMA PRA Category 1 Credit(s)™

Neurophysiologic Intraoperative Monitoring (NIOM) Part II*
6.5 AMA PRA Category 1 Credit(s)™

Intensive Care Unit EEG Monitoring (ICU EEG)*
6.5 AMA PRA Category 1 Credit(s)™

Electrocorticography (ECoG)/Invasive EEG
6.5 AMA PRA Category 1 Credit(s)™

Applied Cases in Central Neurophysiology & Video-EEG
1.5 AMA PRA Category 1 Credit(s)™

Neurophysiologic Intraoperative Monitoring (NIOM) Part II*
6.5 AMA PRA Category 1 Credit(s)™

Applied Cases in Peripheral Neurophysiology
1.5 AMA PRA Category 1 Credit(s)™

Autonomic Neurophysiology
1.5 AMA PRA Category 1 Credit(s)™

Business in Clinical Neurophysiology
1.5 AMA PRA Category 1 Credit(s)™

Video-EEG
3 AMA PRA Category 1 Credit(s)™

EMG
3 AMA PRA Category 1 Credit(s)™

Tricky Neonatal & Childhood EEG Variants
3 AMA PRA Category 1 Credit(s)™

*Credit counts are tentative and subject to change, pending final program revisions. Final credit counts and additional information will be available shortly at www.acns.org/meetings/annual-meeting-and-courses/2016
CALL FOR POSTER ABSTRACTS

Submission Dates
Poster abstract submission opened on October 1, 2015. All abstracts must be submitted online by Sunday, November 15, 2015 at 11:59pm ET. No exceptions will be made.

Online Abstract Submission
Poster abstracts must be submitted through the ACNS Session Management website (https://acns2016.abstractcentral.com). Complete instructions for submission are available online. Abstracts that have been mailed, emailed or faxed will not be accepted. Anyone may submit a poster abstract to ACNS. Membership in ACNS is not required for poster abstract submission.

Abstract Review
All abstracts submitted will be reviewed, evaluated for scholarly and relevant content, and graded in blinded fashion by the ACNS Program Committee. The review process takes approximately four weeks, and acceptance notification will be made by email no later than December 15, 2015.

Abstract Categories
Abstracts submitted to the 2016 ACNS Annual Meeting must fit into one of the following categories to be considered for presentation:
- Autonomic Function and its Disorders
- Basic Neurophysiology
- Critical Care Monitoring
- Deep Brain and Cortical Stimulation
- Digital/Quantitative EEG and Topography
- EEG
- EMG/NCV Testing
- Epilepsy: Clinical
- Epilepsy: Pathophysiology
- Evoked Potentials
- Functional Imaging
- Intraoperative Monitoring
- Magnetoencephalography
- Peripheral Neuropathy/Neuromuscular
- Sensory/Motor Physiology
- Sleep
- Video-EEG Monitoring for Epilepsy

Abstract Types
Two types of poster abstracts submissions will be accepted: Regular Submission or Case Report Submission. Both types of submissions will follow the same review process. Abstract titles are limited to 60 characters and 200 words for the additional required fields listed below for each submission type:

Regular Submission
- Introduction
- Methods
- Results
- Conclusion

Case Report Submission
- Introduction
- Case Report/Case History
- Conclusion

Previous Publication or Presentation
Abstracts which have been published in journals, meeting proceedings, or other publication, as well as those presented at meetings prior to the ACNS meeting are eligible and welcome for submission. All poster abstracts presented at the Annual Meeting will be published in the Journal of Clinical Neurophysiology.

Author Attendance Requirement
By submitting an abstract to 2016 ACNS Annual Meeting, abstract authors are agreeing that at least one author will attend the meeting and will be available to present on the date and time assigned by the Program Committee. Authors will be notified of presentation dates and times at the time of notification of acceptance and are expected to make appropriate travel arrangements to ensure that at least one of the abstract’s authors will be in attendance. In addition, presenting authors are expected to register to attend the meeting by the deadline set forth in their acceptance notification. Abstracts for which an author is not pre-registered by the dates set forth will automatically be withdrawn from the program. Poster setup is tentatively scheduled for Thursday, February 11 and posters will be displayed Friday, February 12 – Saturday, February 13, 2016.

Poster Cancellation Policy
At least one author or co-author on all posters is expected to register to attend the meeting for which they are accepted by the deadlines set forth in their acceptance notification. If this author cancels their registration prior to the meeting, the poster may be withdrawn from the program.

Young Investigator Travel Award
Several young physician investigators will be awarded travel fellowships of $1,000 each. These fellowships are determined based upon the ranking of the applicant’s abstract by the Program Committee.

Eligibility Criteria
Applicant must be: (1) a current ACNS member or apply for membership concurrent with application for Travel Award; (2) a resident, fellow, or junior faculty within two years of completion of fellowship training; and (3) be the first author of an abstract submitted to the Annual Meeting. Applicant must meet the entire aforementioned criteria in order to be considered for the Young Investigator Travel Award. Prior recipients of Travel Fellowships are not eligible for additional Travel Fellowship awards.

Selection
Awardees will be chosen based on the quality of submitted abstracts, as ranked by the ACNS Program Committee. A total of six travel fellowships will be awarded for the ACNS 2016 Annual Meeting. Additional travel awards may be awarded if funding is available.

Award
Awardees will receive complimentary registration for the meeting and reimbursement of travel funds up to $1,000, upon provision of an expense voucher, and original receipts. Awardees will be recognized at an award ceremony during the Annual Meeting. Awards are one-time only.
CALL FOR POSTER ABSTRACTS — CONTINUED

Procedures
Upon close of abstract submission, the ACNS Program Committee will review, evaluate, and rank abstracts, including all candidates for consideration to receive a travel award. The Program Committee Co-Chairs will select the final six awardees based on the collective rankings from the Program Committee. ACNS will notify awardees of decision no later than December 1, 2015. Awardees will then be expected to accept invitation by the deadlines set forth in their acceptance notifications, as well as register for the Annual Meeting, and secure travel arrangements. Upon provision of an expense voucher, including original receipts, reimbursement will be provided to award recipients, no later than 30 days after the Annual Meeting.

Cancellation Policy
Award recipients are expected to register to attend the Annual Meeting by the deadlines set forth in their acceptance notification. If an award recipient cancels their registration prior to the meeting, the Travel Award may be withdrawn from the individual and designated to another candidate.

ACNS Professional Development Mentorship Program

Once again this year, the Annual Meeting will include a professional development session for clinical neurophysiologists. The program is targeted to neurology residents, clinical neurophysiology fellows, and junior faculty at the instructor or assistant professor level. Attendees will be matched with a clinical or research mentor in clinical neurophysiology for a one-on-one mentoring event during the Annual Meeting. The goals of the program are to foster career development in clinical neurophysiology, ensure active participation in many activities of ACNS and facilitate networking.

Please sign up on the registration form to be matched with a mentor, or to volunteer to serve as a mentor!
AWARD RECIPIENTS & LECTURES

The ACNS Awards Committee is pleased to congratulate the 2016 ACNS award recipients.

HERBERT H. JASPER AWARD PRESENTATION & LECTURE
Saturday, February 13, 2016 – 10:15am

“My Memories of Dr. Jasper and My View of the Future of Clinical Neurophysiology as a Discipline”
Donald L. Schomer, MD, FACNS

The Jasper Award is presented annually to an individual who has made a lifetime of outstanding contributions to the field of clinical neurophysiology. Dr. Schomer will be recognized during a general session on Saturday, February 13, 2016. Dr. Schomer is a professor of Neurology at Harvard University and director of clinical neurophysiology at Beth Israel Deaconess Medical Center in Boston, Massachusetts.

PIERRE GLOOR AWARD PRESENTATION & LECTURE
Friday, February 12, 2016 – 12:00pm

“The Possibilities and Perils of Transcranial Brain Stimulation”
John Rothwell, PhD

The Gloor Award is presented annually for outstanding current contributions to clinical neurophysiology research. Prof. Rothwell will be recognized and will deliver the 2016 Gloor Address on Friday, February 13, 2016. Dr. Rothwell is currently a professor of Human Neurophysiology at UCL Institute of Neurology in London, England. He was also elected a Fellow of the Academy of Medical Sciences in 1994.

ROBERT S. SCHWAB AWARD PRESENTATION & LECTURE
Saturday, February 13, 2016 – 6:15pm

“Livy and the Future of Clinical Neurophysiology”
Morris Fisher, MD, FACNS

The Schwab Award is presented annually to an individual who has made significant contributions in the area of clinical neurophysiology. Dr. Fisher will be recognized and deliver the 2015 Schwab Award address on Saturday, February 13, 2016. Dr. Fisher is a professor of neurology at Loyola University Medical Center.

**Intraoperative Motor Evoked Potentials Beyond the Standard Techniques (Joint ACNS/SBNC Symposium)**

Session Director: Paulo Kimaid, MD

- 2:00pm  Transcranial MEP: Single or Double Trains  
  *Aatif M. Husain, MD, FACNS*
- 2:20pm  Transcranial MEP: Utility of Recording From Cranial Nerve Innervated Muscles  
  *Paulo Kimaid, MD*
- 2:40pm  Spinal MEP or Multipulse Thoracic Pedicle Track Stimulation Utility  
  *Rafael de Castro, MD*
- 3:00pm  Direct Cortical Stimulation MEP  
  *Aatif M. Husain, MD, FACNS*
- 3:20pm  Discussion

**Non-Peripheral Findings in ALS: Abnormal Excitability, Central Motor Conduction and Sleep Disorders (Joint ACNS/Mexican Clinical Neurophysiology Society Symposium)**

Session Director: Jaime Ramos-Peek, MD

- 2:00pm  Motor Evoked Potentials in ALS Patients  
  *Armando Valdes-Tello, MD*
- 2:25pm  Upper Motor Neuron Effects on the EMG of ALS Patients  
  *Jorge Burgos, MD*
- 2:50pm  Sleep Breathing Disorders in ALS  
  *Jaime Ramos-Peek, MD*
- 3:15pm  Discussion

3:30 – 4:00pm  Coffee Break – Visit Exhibits and Posters

4:00 – 5:30pm  Concurrent Sessions: Special Interest Groups

**NIOM**

Session Director: Jaime R. Lopez, MD, FACNS

**EMG**

Session Director: Suraj Muley, MD

**Critical Care**

Session Co-Directors: Nicholas S. Abend, MD, FACNS & Elizabeth Gerard, MD, FACNS

**Intracranial EEG – SEEG**

Session Co-Directors: Stephan U. Schuele, MD, MPH, FACNS & Gregory Worrell, MD

5:30 – 5:45pm  Walking Break

Can Clinical Neurophysiology Makes Sports Healthier (and Better)?
Session Director: Claus Reinsberger, MD

11:15 am  Neurophysiology of Concussion
Jeffrey Kutcher, MD

11:40 am  Neurophysiological Assessment of Overuse/Dystonia
Mark Hallett, MD, FACNS

12:05 pm  Neurophysiology of Soccer: Performance Optimization, Overtraining and More
Claus Reinsberger, MD

12:30 pm  Discussion

History and Future of Clinical Neurophysiology
Session Director: Ioannis Karakis, MD, MSc

11:15 am  History and Future of EEG
Andrew Cole, MD

11:40 am  Discussion

11:45 am  History and Future of EMG
Ioannis Karakis, MD, MSc

12:10 pm  Discussion

12:15 pm  History and Future of IOM
Mirela V. Simon, MD, FACNS

12:40 pm  Discussion

12:45 – 2:00 pm  Lunch – Visit Exhibits and Posters

2:00 – 3:30 pm  Concurrent Sessions

Clinical Neurophysiology Trials and Tribulations in Neurocritical Care
Session Co-Directors: Jong Woo Lee, MD, PhD, FACNS & Cecil D. Hahn, MD, MPH, FACNS

2:00 pm  Introduction
Jong Woo Lee, MD, PhD, FACNS

2:05 pm  Lessons from TRENdS
Aatif M. Husain, MD, FACNS

2:20 pm  Finding NEMO
Ronit Pressler, MD

2:40 pm  A SAGE-547 Approach to SRSE
Henrikas Vaitkevicius, MD

3:00 pm  Notes from TELESTAR
Michel J. Van Putten, MD, MSc, PhD

3:20 pm  Wrap Up
Saturday, February 13, 2016

Remote EEG Monitoring: Building a Network
Session Director: Amy Crepeau, MD

2:00pm  Increasing Demand for Remote EEG Services: How We Got Here
Amy Crepeau, MD

2:20pm  Contract Considerations for Remote EEG Services
Matthew Hoerth, MD

2:40pm  Making it Happen: Technicians and IT
Susan Agostini, R. EEG T, R. EP T

3:00pm  Communications and Challenges in Remote EEG Interpretation
Stephen Hantus, MD, FACNS

3:20pm  Discussion

Toxic and Drug Induced Peripheral Neuropathies
Session Director: Alessia Nicotra, MD

2:00pm  Pathophysiology of Peripheral Neuropathies
John England, MD

2:30pm  Evaluation and Management of Drug-Induced Peripheral Neuropathies
Tihomir Ilic, MD

3:00pm  Drug-Induced Peripheral Neuropathy and Other Adverse Effects: The Thalidomide Disaster
Alessia Nicotra, MD

REM Sleep Behavior Disorder and REM Sleep without Atonia: Diagnosis and Treatment
Session Director: Erik St. Louis, MD

2:00pm  REM Sleep Behavior Disorder: Clinical Presentation, Neurological Features, and Treatment
Michael J. Howell, MD

2:45pm  REM Sleep Without Atonia: Scoring Methods, Associations and Clinical Implications
Erik St. Louis, MD

3:30 – 3:45pm  Walking Break

3:45 – 5:15pm  Concurrent Sessions: Special Interest Groups

MEG
Session Director: Anto Bagic, MD, PhD, FACNS

Non-invasive Methods of Cortical Mapping
Session Director: Daniel Orta, MD

Neonatal and Infantile EEG and Seizure Patterns: When do we Need an EEG?
Session Co-Directors: Tobias Loddenkemper, MD, FACNS & Heather Olsen, MD

The EEG a Great Tool
Session Director: Juan Ochoa, MD

5:15 – 5:30pm  Walking Break

### 7:00 – 7:30pm

**Annual Business Meeting**

All delegates are welcome to attend, but only qualifying ACNS members may vote.

### Sunday, February 14, 2016

**Concurrent Sessions**

- **Functional Neurosurgery and NIOM – From Spine to Brain**
  *Session Director: Jay Shils, PhD, DABNM, FACNS*
  - **8:00am** Functional Neurosurgery and NIOM
    *Jay Shils, PhD, DABNM, FACNS*
  - **8:25am** Functional Neurosurgery and NIOM
    *Jeff Arle, MD, PhD, FAAN*
  - **8:50am** Functional Neurosurgery and NIOM
    *Mark Stecker, MD, PhD, FACNS*
  - **9:15am** Interactive Real Life Scenarios

- **The Future of EMG in the Current Medical Environment**
  *Session Director: Morris Fisher, MD, FACNS*
  - **8:00am** Current EMG: A Historical Viewpoint
    *Morris Fisher, MD, FACNS*
  - **8:20am** EMG: A Future Perspective
    *Francis O. Walker, MD, FACNS*
  - **8:40am** EMG: The Present and the Future — A Mayo Clinic Perspective
    *Devon I. Rubin, MD*
  - **9:00am** EMG and Private Practice: Going the Way of the Dinosaur?
    *John Wilson, MD*
  - **9:20am** Discussion

- **New Frontiers in Electrocorticography**
  *Session Director: Anthony L. Ritaccio, MD*
  - **8:00am** Decodification of the Brain by Electrocorticography
    *Anthony L. Ritaccio, MD*
  - **8:30am** Brain-computer Interfacing Using Electrocorticographic (ECoG) Activity
    *Aysegul Gunduz, PhD*
  - **9:00am** Modern Understanding of ECoG-Based Neurophysiology
    *Gerwin Schalk, PhD*
Sunday, February 14, 2016

**Multimodal Strategies in Surgical Epilepsy Planning (Estrategias Multimodales en la Planeación de Cirugía de Epilepsia) (Joint ACNS/Latin American Neurophysiology Society)**

*Session Director: Adriana Bermeo-Ovalle, MD*

**NOTE:** This session will be presented in Spanish.

8:00am

**Use of Semiology and Non-invasive EEG for the Localization of the Epileptogenic Zone: Special Considerations for Children (Uso de Semiología y EEG No-invasivo en la Localización del Área Epileptogénica: Consideraciones Especiales en Niños)**

*Elia M. Pestana Knight, MD, FACNS*

8:20am

**Non-Invasive Tools for Multimodal Evaluation in Refractory Epilepsy: Nuclear Medicine Studies and MEG (Herramientas no-Invasivas para la Evaluación Diagnóstica Multimodal en Epilepsia Refractaria: Estudios de Medicina Nuclear y MEG)**

*Adriana Bermeo-Ovalle, MD*

8:40am

**How to Plan an Invasive EEG Evaluation and How to Use the Information Acquired (Como Planear una Evaluación Invasiva de EEG y Como Usar la Información Adquirida)**

*Juan Bulacio, MD*

9:00am

**Update on Outcomes in Epilepsy Surgery (Actualización Sobre Resultados en Cirugía de Epilepsia)**

*Andres Kanner, MD*

9:20am

**Discussion**

9:30 – 10:00am

**Coffee Break**

10:00 – 11:30am

**Concurrent Sessions**

**QEEG During Invasive Epilepsy Monitoring**

*Session Director: Gregory Worrell, MD*

**Clinical Neurophysiology of Insular Cortex Epilepsy**

*Session Director: Dang K. Nguyen, MD, PhD, FRCPC*

10:00am

**The Structure and Function of the Insula**

*Olivier Boucher, PhD*

10:20am

**Video-Scalp EEG Investigation of Insular Cortex Epilepsy**

*Dang K. Nguyen, MD, PhD, FRCPC*

10:40am

**Value of MEG and EEG-FMRI in the Investigation of Insular Cortex Epilepsy**

*Younes Zerouali, PhD*

11:00am

**Invasive EEG Investigations of Insular Interictal and Ictal Abnormalities**

*Philippe Ryvlin, MD, PhD*

11:20am

**Discussion**

Annual Courses Total (A): ________________________________________________

SPECIAL NEEDS

☐ I have a need for special assistance (physical or dietary). Please explain: ________________________________________________

HOW DID YOU HEAR ABOUT THIS MEETING?

☐ I’m an ACNS Member ☐ ACNS Website ☐ ACNS Emails ☐ ACNS Postcard

☐ Colleague/Word of Mouth - Please specify: ________________________________________________

☐ Through another organization/meeting - Please specify: ________________________________________________

☐ Other - Please specify: ________________________________________________
I am interested in taking part in the ACNS Mentorship Program.

Friday, February 12 – Morning Workshops

While there is no additional charge to attend these workshops, please indicate if you would like to attend, as space is limited.

- 604: SEEG Workshop
- 605: Electro-clinical Approach to Epilepsy Surgery
- 606: Electrocorticography for Functional Mapping

Please check below the sessions you plan to attend. Pick one from each time segment. This information will be used to assign sessions to available rooms based on anticipated attendance. You are not obligated to attend the sessions you check.

Friday, February 12

- 2:00-3:30pm
  - 641: Pediatric EEG Patterns
  - 642: MEG Workshop
  - 643: Intraoperative Motor Evoked Potentials
  - 644: Non-peripheral Findings in ALS

Saturday, February 13

- 8:00-9:30am
  - 711: Montage Matters – Designing EEG Montage
  - 712: Stand-alone Home Video
  - 713: Challenging Electrodiagnostic Findings

Sunday, February 14

- 8:00-9:30am
  - 821: Functional Neurosurgery and IONM
  - 822: The Future of EMG
  - 823: Multimodal Strategies in Surgical Epilepsy Planning (Spanish Symposium)
  - 824: New Frontiers in Electrocorticography

PAYMENT INFORMATION

Courses Total (A): $350 + Annual Meeting Total (B): $320 = GRAND TOTAL: $670

- Company Check – Make check payable to American Clinical Neurophysiology Society (in US dollars, drawn on a US Bank)
- Credit Card (check one): □ Visa □ MasterCard □ Discover
- Please invoice me.

Card Number ___________________________ Expiration Date ___________________________

*Registration will not be processed without payment and signature*

SIGNATURE OF AGREEMENT. Please retain a copy for your records. You are hereby registering to attend the 2016 ACNS Annual Meeting & Courses, February 10-14, 2016, at the Hilton Orlando Lake Buena Vista in Orlando, Florida. I understand that the event registration rate listed above will be charged to the credit card I have listed. I understand further that all registration charges must be paid in full upon completion.

CANCELLATION POLICY. Refund requests must be submitted in writing to ACNS prior to January 18, 2016. A $20 processing fee will be charged for all refunds. We regret refunds will not be guaranteed for requests postmarked or received after January 18, 2016.

WAIVER: Submission of this registration form and payment of associated fees serves as agreement by the delegate to release the American Clinical Neurophysiology Society, the Hilton Orlando Lake Buena Vista, their respective agents, servants, employees, representatives, successors, and assigns, from any and against all claims, demands, causes of action, damages, costs, and expenses, including attorneys’ fees, for injury to person or damage to property arising out of attendance at the ACNS Annual Meeting & Courses. In addition, the delegate hereby grants permission to use his/her likeness in a photograph or other digital reproduction in any and all of its publications, including website entries, without payment or any other consideration, agreeing that these materials will become the property of ACNS which has the right to edit, alter, copy, exhibit, publish or distribute this photo for purposes of publicizing its programs or for any other lawful purpose. Additionally, the delegate waives any right to royalties or other compensation arising or related to the use of the photograph.

I do not wish to be included on the delegate list provided to supporters. I do not wish to be included on any published delegate list including programs, mobile apps, etc.

PLEASE RETURN THIS REGISTRATION FORM WITH REQUIRED PAYMENT TO

American Clinical Neurophysiology Society, Attn: Meetings Department
555 E. Wells Street, Suite 1100 • Milwaukee, WI 53202 • Fax: (414) 276-3349 • E-mail: info@acns.org
MEMBER TYPE (Please check one.)

☐ Regular Member / $325

Individuals who have obtained a MD, DO, or PhD degree or are credentialed by ABRET or the equivalent

Please check below to apply for one of the following discounted dues categories for Regular Members:

☐ Non-Physician / $245

☐ First year of practice / $150

☐ Resient of World Bank "High-Income Economy" Country (excluding the United States and Canada) / $165

☐ Resient of World Bank "Upper-Middle-Income" Country / $125

☐ Junior Member / $95

Training Completion Date: ________________________________

Individuals in clinical neurophysiology or related fields who are in pre-doctoral or postdoctoral training; limited to a period of three (3) years.

☐ Associate Member / $230

Individuals who have an interest in clinical neurophysiology or related fields.
